

ADVANCED LITHIUM-ION TECHNOLOGY

## EnerSys Financial Solutions (EFS) Extends Residual-Based Financing to EnerSys NexSys® iON Batteries

EFS offers 100% financing for material handling equipment, chargers and batteries. Customers can now utilize a single finance agreement to acquire Lithium-ion solutions—no more large, upfront capital purchases necessary.

Take advantage of a variety of flexible leasing options, including a 72-month Fair Market Value finance agreement with an optional, fixed-price buyout after 5 years (60 months). EFS can accommodate customer financing needs for any material handling or adjacent project needs with customizable payment structures designed to meet the unique requirements of each customer.
