BATTERY HANDLING EQUIPMENT

ROLLER TRANSFER CART BATTERY HANDLING EQUIPMENT

Simplicity at its finest, the RTC battery handling equipment is designed to service or transport lighter batteries and engineered to withstand harsh environments. Available in various heights and configurations to suit any application the RTC battery handling equipment is perfect for traditional warehouses and can be configured to suit your operational needs.

A cost-effective, dependable solution for operations with small-scale batterychanging requirements, the Roller Transfer Cart battery handling equipment offers a quick and efficient solution to keep your employees safe during every change.

FEATURES

- Heavy-duty welded construction
- Optional Floor locks for added safety and convenience
- Phenolic casters provide lower rolling resistance
- Durable roller design

BATTERY HANDLING EQUIPMENT

PRODUCT BENEFITS

- Compact for easy maneuverability
- Custom designs available to meet your operational needs
- Durable construction for harsh environments
- Built-in backstop for battery & equipment protection
- Long lasting powder coating – available in various colors

BATTERY HANDLING EQUIPMENT

PRODUCT SPECIFICATIONS

DESCRIPTION		STANDARD	METRIC
1	Capacity	4000 lb	2268 kg
2	Service Weight (RTC-1-18)	704 lb	320.0 kg
3	Roller Diameter	3"	76.2 mm
4	Roller Shaft Size	11/16" Hex	17.3 mm
5	Model Color	Blue	

PRODUCT DIMENSIONS

DESCRIPTION		STANDARD	METRIC
6	Overall Length (RTC-1-18)	50"	1270.0 mm
7	Overall Width	25"	635.0 mm
8	Overall Height: Raised	45"	1143.0 mm
9	Ground to Roller Height (Lowered Position)	11-½"	292.1 mm
10	Ground to Roller Height (Raised Position)	13-½"	349.9 mm
11	Wheel Base (RTC-1-18)	19-½"	495.3 mm
12	Ground Clearance	7/8"	3.4 mm
13	Battery Compartment Length	40"	1016 mm
14	Battery Compartment Width (RTC-1-18)	18"	457.2 mm

BATTERY HANDLING EXPERTISE

Whatever the size of your battery fleet, PRO Series® battery handling solutions can help you streamline your battery changing operation with a safe, productive and cost-efficient system. From initial design, drawings and engineering through to complete installation and project management, PRO Series® battery handling solutions can support your operation with everything you'll ever need for effective battery charging and changing. Let us plan your success.

PRO Series® battery handling solutions include a range of systems and equipment that comply with health and safety regulations. Using the latest CAD software, we will design a system that matches the needs of your business. With PROSeries® battery handling solutions, you'll enjoy the highest degree of safety and ease of operation of any equipment available today – all backed by our skilled design and installation capabilities.

OUR EXCLUSIVE PARTNERSHIP WITH CARNEY BATTERY HANDLING LTD

Since 1984, Carney Battery Handling Ltd has globally provided EnerSys® with turn-key battery room solutions, sharing our mission to innovate, design, and create quality critical battery room solutions as dedicated partners.

Our dependable alliance allows us to provide dedicated support, delivering tailored engineering and design individualized for every customer.

With an emphasis on quality and safety, all our equipment is rigorously tested for real-world environments ensuring its readiness to meet the demands of any application.

**COMMITTED TO QUALITY
EVERYWHERE FOR EVERYONE.**

PROSERIES®

WHEREVER YOU DO BUSINESS, ENERSYS® CAN SUPPORT YOU WITH MOTIVE POWER ENERGY.

ABOUT ENERSYS®

EnerSys, the global leader in stored energy solutions for industrial applications, manufactures and distributes energy systems solutions and motive power batteries, specialty batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide.

Energy Systems, which combine enclosures, power conversion, power distribution and energy storage, are used in the telecommunication, broadband and utility industries, uninterruptible power supplies, and numerous applications.

Motive Power batteries and chargers are utilized in electric forklift trucks and other industrial electric powered vehicles requiring stored energy solutions. Specialty batteries are used in aerospace and defense applications, large over-the-road trucks, premium automotive, medical and security systems applications.

EnerSys also provides aftermarket and customer support services to its customers in over 100 countries through its sales and manufacturing locations around the world. With the recent NorthStar acquisition, EnerSys has solidified its position as the market leader for premium Thin Plate Pure Lead batteries which are sold across all three lines of business.
